THE NEW CABINET MINISTER.

The Honour for Sir R. Isaacs.

The following official appouncement was issue t from 10, Downing-street, as telegraphed by Reuter on June 11 :- " The King has been pleased to approve the appointment of the Right Hon. Sir Rufus Issacs, K.C.V.O., R.C., to be a member of his Majorty's Cabinet."

This is a remarkable distinction for Sir Rufus Isaacs, as hitherto the Law Officers of the Crown, although they have been members of the Ministry, have not been members of the Cubinet. In modern times the Cabinet always included the First Lord of the Treasury, the Lord Chancellor, the President of the Council, the Lord Privy Scal, the five Secretaries of State, the Chancellar of the Exchequer, and the First Lord of the Admiralty. Others, such as the Postmaster-General, the First Commissioner of Works, the President of the Board of Trade, the Chancellor of the Duchy of Impraster, the Chief Bocrefary of Ireland, and a few of the other members of the binistry. are also usually, though not necessarily, mem. bers of the Cabinet, which generally con-

ined from sixteen to twenty members. The rise of Sir Rufus Isanes since 1910 has been rapid. He was made Solicitor-General, then Attorney-General, and knighted all within that year. In parliamentary circles the new distinction is compliment. It is well-deserved personal the past two years Sir Rufus Isaacs has shared in the conferences of Ministers to a degree unusual for the law officers of the Crown, and the part he played in the settlepent of the rairay and soul strikes in association with leading members of the Cabinet will be at once recilled. He has been the member for Reading since 1904.

## 19 ROTARY DUPLICATOR.

Has achieved a success unequalled by any other Rotary-Duplicator. This is due for simplicity of working and the excellence of fitting of the paris. It has caused a completed revolution in Duplicating, and the production of perfect copies by the Rotary-Machine. From a well written original any boy can make thousands of copies on any paper. and each one will be perfect. There is absolutely nothing to go out of order, and the apparatus is always reader

There is a mechanical device which allows the copy to be made in any position det The pressure-roller is regulated by a simple lever, and the arrangement is so make that it is impossible for the operator to have difficulty with his work. The printing cylinder is geared so that one turn of the handle makes a copy,

A most important advantage ELLAMS B 19 possesses is that the ink never

drips and runs all over the Daplicator ha on other Machines. The ink never dries on the roller or pade, and copies can be made on any kind a paper. Moreover, this ink does not start the hands it any way. There is no peculiar or complicated fastening of the stencil-sheet to the Duplicated The ELLAMS B 10' Duplicator is so absolutely simple that it requires experience whatever to produce perfect copies from it there is no calculating

The Machine is fitted with an automatic Copy-counter recording instantly the total number of copies taken. We stock three different kinds of this Duplicated 1-For deplicating type written documents .... ... ... Price ... Price ... 2-Por doplicating both type and handwritten ducuments ... 3 For duplicating both type and landwriten documents with

self-feeding attachment Complete with all supplies ready for immediate use." Considering the excellent workmanship of the apparatus, the prices are reasonable and compare most favourably with any Duplicator on the market We quarentee that the blackines well give complete attidaction.

THE NAVIES OF THE WORLD.

A White Paper insuedimmethe Admiralty [ (From Shipping and Engineering Gazette') gives a return of the fleets of Great Britain, France, Russia, Germany, Italy, Austria-Hungary the United States, and Japan on March 31 last, omitting battleships and armoured cruisers over twenty years old from the date of launch and distinguishing verse's both built and building.

Great Britain is credited with \$5 battleships built and 10 are building. France ham 21 complete la battleships and seven building, three of 1912 programme being not yet laid down. Germany possesses 33 built and nine building, one of the 1912-13 progrumme having yet to be laid down. The United States have 31 completed and six building, two of the 1911-12 programme having yet to be laid down. The figures Call of \$5.00 and \$3.00 Premium (\$8, for the remaining Powers are: Russia, nine completed, seven building; Italy, eight completed and six building ; Austria-Hungary, 12 completed and four building : and Japan, 15 completed and two building. Great Britain and Germany, the two North Sea Powers, are the only countries which consess battle cruisers, England having four

and Germany two, but Japan is stated to be building four Germany is also acreasing her fleet by a shhilar number of that clear of yessel, while Great Britain is building six. Great Britain and France-show algrest apponderance in armoured crui-ers, the numbers being, 34, and 21 respectively; fagsinst six Russian, German, 10 Italian, three Austrian, 14 United States; and 13 Japanese. England has 18 first-class protected cruisers, against three, and Japan's two. England and Germany enaily take the lead in secondclass protected cruisers, the former possessing 38 and the latter 36. England - building nine and Germany eight. The United States possess 15 second-class. cruisers, Japan 12 (with two building), and France four. Russia one, Italy two, and Austria-Hungary three (with three building, one not yet hid down). The United States is the only Power which does not possess third-class protected cruisers. Great Britain has 16, Germany 11. Italy 11 (two partially protected), France six, Japan five, Austria-Hungary three, and Russia two. No third-class cruisers are building. England has five unprotected cruisers and two building. Germany possesses six, Austria three, the United States three, and Japan four. Of torpedo vessels Great Britain has .14, with six depôt ships for tornedo-boat destroyers. and six depot ships for submarines. France has one vessel and one special vessel,

Russia three, Italy 5, Austria-Hungary II, the United States two, and Japan one and two submarine depot ships. The largest list in the return is that for to reed a limit destroyers, of which England pos-esses 179, with 30 building. France ass 68 built and 15 building, Russia 94 built and 10 building, Germany 110 built and 94 building, 12 not yet laid down 1912-13 programme; Italy 22 built and 10 building, Austria-Hungary 12 built and a = building, the United States 40 built and 14 hailding, and Japan 56 built and two suilding. Of torpedo-boats Great Britain

United States 25, and Japan 57; Italy is England and France are shown with large proposiderance in submarine bosts, 893 former pes-craing Ba built and 14 building (tirres Australian), and Franca 58 built and 25 buildin L. Rossis hes 29 built and seven building, Germany 13 built and 13. building (further numbers are stated to be uncertain), Italy O but and 10 building. to urrive on July 5. us ria Hungary six built and one building. the United States 24 built and 19 building, and Japan 12 built, and three

"SHIPPING NOTES.

The sulvage operations undertaken by the Yamashima Marine Company on the steamer Madeleine Rickmers, which went ashore on Vries Island on March 14 and was abandoned as a total loss, have been successful in refloating the vessely She was towed off the 'rocks on June 16 and taken to Uraga dock where she will be surveyed and repaired.

There are at present under construction at the yards of Mesers. Workman and Clark of Belfast six new vessels for the Far Eastern service of the Royal Mail Steam Packet Company. The vessels will be of the same class as the Monmonthshire at present on the run and will have a gross tonnage of 9,000 each and h sea speed of twelvenknots.

Advices from Newchwang to the "Manchuria Daily News'" state that all hope of refigating the s.s. Tamon Maru No. 2, 2,136 tons, which sank two years ago at the mouth of the River Liao, has been given up. Sho is said to be deeply imbedded, in

the mind of the river, only her upperdeck appearing above water. The speed trials of the new Japanese battleship Settsu, which has been constructed in Japan, were undergone in the

Inland Sea. The battleship, which has

a tonnage of 20,000 tons, developed France's five. Russia's seven. America's speed of 21 knots, which is one knot greater than her contract speed. While going up Whangpoo river at 10 u.m. on July 2 the China Navigation steamer Tientsin took a broad sheer when off Pootung Point and shot across toward the Garden Bend, being brought up on her anchors before any damage had been done. .. The incident - emphasises the

need for a buoy off the Point in order

that shipping may be able to ascertsin

the proximity of the shoal. The P. and O. steamer Oriental, while left Shanghai on July 3 to resume be run on the Yokohama-Shanghai-run, was measured while in that port for the installation of wireless telegraphy and the operator's house was creeted on deck. It is anticipated that the gear will be ready for installation on the vessel's return to Shaughai from Japan.

The Olen Line steamer-Glenroy, which left here on June 29 for Japan, were ashure on Iki Shima, about 60 miles W.S.W. of Moji on July 3; while on her way from Nagasaki to Moji. The vessel, which carried a general cargo, among which is a quantity of iron and 6,000 packages of explosives, was holed forward has 73, France 161, Russia 29, Garmany of the cross bunker, there being 13 feet 80. Italy, 84. Austria Hungary, 60; the of water in the No. 1 hold and 18 feet in the No. 2. The boiler and longinerooms remained intect and, with the aid of the salenge steamer Ours Marti, the vessel was successfully refloated on July 4 and unchored off the roof. She is toported to be four feet by the head and is making for Nagusaki where she bopes

> The following notice to owners and masters of petroleum-carrying vessels issued by the Board of Trade:-

The Board of Trade desire to direc the attention of owners and musters petroleum-carrying vessels to the great desirability of keeping cofferdams on such vessels filled with water whenever the cargo, or part of the cargo consists of petrol, napiha, benzoline or similar products. It is also desirable that the same procaution should be adopted when the vensels are carrying eargoes of heavier qualities of oil in climatos in which the average temperature of the nir rises approgrably above the flosh-point of the

We regret to record the death, ut the General Hospital on June 30, at the s of 63, of Captain G. Proberg, late master of the OM w.s. Henelt, Captain Fro berg joined the Clima Merchants in 188 and was given his command in 1887. was in command of the Usette M Continued on pros 3.

when she was sunk off Steep Island collision, with the same company's. steamer Kwanglee in April, 1911, and it is thought that the long immersion in the water had a projudicial effect on his health us he had been ailing ever since. About and gradually sank. The funeral took place at Bubbling Well Comptery on July and was attended by a large number of friends and former shipmates and nembers of the lodge to which Captain Froberg belonged.

Thre new vessels are being added the fleet of the Indra Line the first which, the Indraghiri is at present Japan and is due at Shanghal on July 18. The second ship, the Indrani left New York for the Far East on June 25 and the third, the Indraqualla leaves on July 23. The new vessels are of the improved Indradeo type, each ship being an improvement, on the one before. limensions of the Indrughiri are't Length 130ft. B.P., breadth 59ft. Sin. and depth to upper deck 30ft, with a deadweight sapacity of 0,200 tons. The engines arcof 264, 45 and 75in, with a stroke of 54in. and are supplied with stoom from two double ended and one single ended boiler designed to give a sea speed of 12 knots. The new vessels are fitted with five hatches and all modern appliances to expedite the handling of eargo. They also lave secommodation for eight saloop

It is expected that the Shire Line steamer Pembrokeshire, which left Shang hai for Hankow on July 2, will have completed her last trip to the Fur East on her return to Great Britain. The boilers of the vessel have been found inadequate for the needs of modern transport and as there are structural difficulties in the way of installing new boilers, the ship will be condemned and sold shipbroakers. The Pembrokeshire, which was originally the Greek, was launched for the Union Line in 1808 by Messrs. Harland and Wolf of Belfast, with dimenslons 400ft, by 47ft, by 26.9ft, and gross tonnage of 4.747, and with her sister ship the Gaul, was bought by the Royal Mail and renamed the Segura and Sabor. In 1908 they were placed on the Far Eastern run and a year later we re-christened the Pembrokeshire Carmarthenshire. Both vessels have magnificent accommodation for about. saloon passengers and, in spite of their tack of speed, have been favourites with have enjoyed excellent health in every the travelling public.

The following is the report of the Board of Directors of the Shanghai Dock and Engineering Co., Ltd., for presentation at the sixth annual general meeting be held at the head office, July 10, 1912: Gentlemen,-The Directors submit herewith their Report with Statement of Accounts made up to April 30th last.

The Net Profits for the year ended on April 30, 1912, including the amount brought forward from last year, and after \$1.50, six for \$8.60, post free paying all charges and allowing for all known liabilities, amount to Tls 169,766.29.

This amount the Directors recommend to be dealt with as follows, viz :-

Dividend of Tis. 3 per Share, shearbing ...... 165,600.00 Amount to be carried to New Account ...... 4,166.29

Tis. 169,766.29

"A fire broke out in the engine-room of the oil tank steamer Dakotah, lying in the Shanghai river off the Asiatic Petroleurn wharf, at 1 a.m., on July 8. The fire at one time looked as if it would assume serious proportions. The Harbour Fireficat at once got up steam and went to her essistance, but the fire had been got under control by the officers and crew of the vessel before her strival and her services were not required. Little damage was done to the vessel by the

POETS WISH FOR DEATH.

Tragic. Fulfilment.

This morning, wrate the "Standard's" Paris correspondent on June 11, the poet Loun Dierz was found lying dead upon his Commission bed by his landlady. He lived very modes ly, and kept no servant, being in the habit every afternoon and avening of spending his time at a neighbouring cald. HONGKONG, where he took his meals. Last Sunday he accompanied M.M. Henri de Beguier Victor Margueritte, and other men of letters to the house where the post Stophane Mallarme used to live, and read a prem which he had written in honour's the anniversary. Yesterday he lost the café at eleven, and as he passed the concierge said; "Ah, well I must be groing to rest-if only I need not wake again !" The good woman scolded him for say

ing such things; and soon siter his brother &0 | cilled and stayed with him till two in the morning, To-day, he was discovered lifeless in his room, his last wish being thus curiously fulfilled. Leon Diarx was 74 years old, having been born in the island Réun on in 18 8. He has often been called The Last of the Pernassians, though some of his later works were full The Hongkong Ferry Wharf of the natural emotion against which his master, Leonate de Idde, always inverghed In 1901; after the death of Mallarme, the The Kiosk, Blake Pier.

The Upper Peak Train Station the ugh he was not a condidate for that honour. As above stated, his last public humous honours being rendered to his in decree, bislistme. Di-ra-published Poenss et Poenia.

in 1884 Levren closes in 1887 and Pames d'un Vaincy in 187 Podaira Comilation ale first collected edition, was published in the following Acidemy. A spound collected adition

ON CRUTCHES FOR FOUR MONTHS.

Now Walks with Ease. Yet Another Victim to Cripplin Rhenmati:m Finds Complete

Cura in DR WILLIAMS"-PINK PILLS.

Over twenty years hav passed a nee the exceptional efficacy of Dr Williams Pink Pills in cases of Rheumatism was first demonstrated, and to d y the world-famous Tonic still stands easily first as a specific or this paralysing malady. By elimination from the blood stream the poisonous ac which is Rheumstiem's cause, and rapidly current, these Pills have naturally and carely restored multitudes of theumatic suffer r many of whom were in a much worke state than was Mr W. van de Liar. Telling of his own experience in this con-

piection at he residence in Gang Tegela in, Selambia, Batasia, the other day, Mr van de Laur, who is a pensioner of the Dutch East Indian Army, said:-"So. severe a nold had Rheumatism fastened upon no some two and whalf a a rango, that for full

MR W. VAN DE LAAR, OF BATAVIA, JAVA. Cured of Rhenmatism by Dr Williams' Pink Pills.

months I was compelled to use crutches in order to get about. The pains not only were in my legs and arms, but they affected my mck so badly that it was only with the greatest difficulty I could strop. At the same time my blood was impoverished, my harvous system was run down, and I suffered from headaches, dizziness and constitution. . " From one doctor I went to another. until all four had treated me. Afterthat I tied a number of advertised remedia. Y still I remain d in a deplorable condition . " When finally persuaded by a friend to ry Dr Will ams Pink Pills for Pale Peop's my attitude of mind was totally against this medicine, everything else tried previously having given me nothing but dis pocintments. But, feeling a little. better after the first bottle of Dr. William l'ink Pills I perses erod through a cour e of them, and then: f und myself perfectly well. To be precise, it ook seven bettleof these Pils to cure me; since then

Pure strong Blood means sound digestion. beathy skin, trong nerves and perfect he lth. That is, why Dr Williams Pink Pills for Pals People-the greatest blood Builder and Neive Tonic known to presentday Medical Science—unjoy a world-wide reputation as being the most certain remedy for Accomia, Debility, Malaria, Rheumatism, Indigestion, Skin Complaints, Nervous Mabrica even of the most serious and long-standing nature, and ladies' special aches and ills. # LIFE WITHOUT HEALTH IS LIVING DEATH VETARZOBRAIN AND NERVE FOOD

This principals compound, the latest discovery of modern times, is without a gual in all cases of defect to nerve and brain power, whather induced by worry, overwork, discipation, or other influences. Seepleseness, palpitation, defective circulation, nervous dyspeptia, tim or negralization see deficiency, mental and bedity prostration, want of confidence, general defility, premature decay see deficiency or the rital forces, loss of vitality, harassing dreams, restinances that can settle to mathing, irritability of temper, female complaints, hysteria, backache, bearing down sensations, wasting diseases, consumption, night sweeks, maddy, high-colored water, are all so many different phases, of brain and nerve wreckage and exhaustion, the cause of by far the greater portion of the minery, illohesitie, and despondency by which we are confronted on every hand, that can only be successfully combined by the use of this wonderful and highly scientific preparation. Bracing up the system generally, it gives tone to the exhausted nerves, arrests all weakening wasting discharges, restores the falling energies, and imparts new life and vigour to those site had so recently seemed played out, used up and valueiess. Bottles Price 2s, 8d.

# WITHOUT PURE BLOOD HEALTH IS IMPOSSIBLE.

plever before was there emything like it, mor can its marvallous properties ever be equalled in all cases of poorsees, impurity, or other imperfection of the blood from whatever cause arising. Bio accounts it imbited into the system than it permeates and penetrates to the minutest capillaries, overcoming and expelling classes whereacever and in whatever form mer with removing all blotches, pimples sear, sensy, accombons and glandular swellings, discolorations, rengiment and unsignity patches, by. Its effects are almost maxical in the meaningst of great, rheumation, scientics, landings, paths and swellings of the loints, discharges, blood points, charmation, scientics, bad legs, but breasts abscesses, alors, wounds, sores, spills or Derivative asset. It subjects the general leasts, and property of constants of constants properties. Constitution of the control of the product of the control of the c

WIRELESS NOT TO REPLICE CABLE.

Morits of Two Systems.

The recent dubate in the British Par lament on the proposed establishments of a chain of Wireless stations in the bext of an interesting article by Mr. Charles Bright in the June number of "The Nineteenth Century and After Under the title of "Cables versus Wireless Telegraphy," the relative merits of sho two systems are discussed in a masterful manner by the author, sen of the late Charles Tilston Bright, who laid the first Atlantic cable, and himself a very high authority upon tolegraphic communication by land and sea. Apropos of the discussion of the Imperial wireless. scheme with incidental activity in both cable and Marconi shares, he says :---

... We live in an age of American Publicity Departments " for dealing with" subjects in the literary columns of nawspapers in place of the ordinary, straightforward advertisement: Many nowspapers in this country liave of late been well provided with such material in regard to this Imperial wireless schemeoften more or less in the same words. This booming of wireless has, indeed, seldom lacked extravagance at any time, and now shows signs of no diminu-

POINTS WHICH PAYOUR CABLE. Beviewing the claims made by the advocates' of the wireless system, Mr. Bright asserts that, in point of speed and. of securacy and secreey, the cable service is greatly superior, to wireless. Touching the stress that has been laid upon the fact that in time of war submarine cables may be cut, he remarks that, on the other hand, wireless towers form a ready target to shoot at from distance. As to interruption of service, he points to recent experiences in connection with the Titanic disaster as proof terms. that " wireless telegraphy as an orderly and reliable service, compares at present very poorly with the service afforded by cable." Recent assertions by those engaged in booming wireless that their system would displace submarine cables is answered by the action of the Ottawa ecuierence and by the conduct of Germany, France and Italy, which, having admirable wireless systems, continue to lay down more cables. Mr. Bright adds :- -"Our American cousins, too, can

hardly be said to lack in enterprise or appreciation of what the latest inventions can do for them; and the Western Union Telegraph Company of New York would scarcely have indulyed in a new Atlantic cable, and practically bought out five British lines, if it had thought 'wireless' would prove more efficient"in the

The conclusion reached by Mr. Bright is that while the wireless has its independent use-notably for communication between ship and ship and between ship and the shore-it is not destined to supersede the submarine cable, but to serve as an auxiliary to it.

WIRELESS TELEPHONY.

Band Playing at Algiers Heard at

Some remarkable experiments in wareless telephony are said to be proceeding off Toulon aboard the yacht Hirondelle, which belongs to Prince. Albert of Monaco. By means of apparatus invented by M. de Zepel the Marseillaise played at Algiers, was registered and definitely heard aboard the Hirondelle. The applica tion of this discovery, which is said to consist in registering sounds, instead merely of conventional signs, will prevent; it is claimed, the interception of messages and will lead to the simplification of transmitting "and receiving ap-

The opinious of two French scientists, MM. Ebranly and Vivian, have been sought by the Liberte with regard to this discovery. M. Ebranly, one of the distcoverers of wireless telegraphy, declines to offer an opinion on the ground that he knows nothing about M. de Zepel's apparatus or the inventor himself. M. Vivian, of the Marconi Company, declares that similar experiments have already been carried out at a distance of 250 miles by two French officers, Jance and Colin.

THE FIGHTING AT LHASA

Questions in the House of Commona.

Beplying to Sir J. D. Rees (U., Nottingam, E.), Mr Montagu (Under-Storetary for India) in the House of Commons, on June 11, said, as regarded, the states of affairs in Tibet, that the latest news from Lhasa, dated May 28, was to the effect fighting continued inces antly, neither side: showing any sign of capitulation. All atsupport at effecting a settlement lad failed The Chinese garrison in Tangve-ling monutery was stated to have three Maxima und to be holding out well, the Chinece being surrounded by the Tibetans. The Chinese had exhausted their provisions, and were said to be in streat straits fire for d. Many houses had been borned by hoth sides, and Lines was reported to be reduced to one-third of its former size The Chinese were wated to have shelled the Potals Palsoe, but without doing serious damage. The Tibetans had been resigned the Trapeli barracks, which were occupied by about sixty Chinese traces e.b Chine-a wern chiled in a recent it ement; the Time an examiliar we a tot knight. NOTES ON WILD LIFE IN HONG-KONG AND SOUTH CHINA.

(By Rev. G. A. Bunbury, M.A., Principal of Diocesan Training College, Canton.) These notes are the result of observations made during the post low years, in the intervals of Mission work. They do not profess to be exhaustive. It is hoped that they may serve as finger-posts to other observers in this interesting field.] MANNALS. Carnivora.

Carnivorous nuimals are divided into the following groups :-(a) Cats (lion, tiger, leopard, etc.)

(b) Civota. (c) Hynonas. (d) Dogs (including wolves and jac-

(o) Bears. (i) Raccous. (g) Weasels, Badgers, Otters.

(a) Tiger, 'Chinese name Fu, seen on mountains in South China. Captured by pitialls in Fuh-kien, Kwong-sai and Waichau. Rarely, if ever, touch humans. There is a strange superstition as to the origin of the leopard, " the tigress gives: birth to three cubs, one of which is a

(a) Leopard, Chinese name P'au, seen on mountains in South China. 4ft. long,

(a) Wild cat. In addition to the many cats which have escaped from houses Hongkong, a true wild (i.e. not proviously domesticated) cat is found on the Peak, and often ninkes its way the lower roads. It may be recognised by its size and the shortness of its ears. If report be true, the domestic cat was unknown in Chins till Dick Whittington sold his own to the Emperor.

"(b) Tree-civet, Chinese " name Kwo shu, seen at Loh Fau. Body 15ins long; tail Sins., beily buff, back brown with three longitudinal black stripes. Two or three young at a birth; " nests in trees, ents birds."

(b) Chinese name Tsat tuen, seen on Kowloon Hills. Length 21ft.; tall 1ft.; no brush; body grey-green with black rings on flanks and tail. Weight about 6lb., shape of fox, sharp nose. (b) Chinese name Ng tuen, seen on

Kowloon Hills. 2ft. 6in. from nose to tail, 10-15lbs., body light grey with dark lines from shoulder to flank asharp nosa. Sold at 40 cents per catty, the flesh boiled for broth. The Chiffeso say there is sexual difference, "themselves beget two at a litter.

(b) Chinese name Ye lei, seen Kowloon Hills, Kong-moon, etc. Length 12-14ins., tail Sins., colour as tsat tuen, weight about 21b. See "Government Gazette," 1908, p. 418. . (d) Chinese name Chai kau, seen on

Kowloon Hills, San-wui, etc. Size of large retriever, colour brown. Seen mostly in autumn and winter. Otter (Lutro vulgaris), Chinese

name Shui ch'at, seen at P'ing-chau. N.T. Said to be seen in great numbers on dark nights in the autumn. H.K.M. Mammas.-Rodentia.

ously represented at the present day than bristles. It has a long pig-like shout. MESSES JARDINE, MATHESON & Co., any other order of Mammals, They in"

(a) Squirrels. (b) Marmots. (c) Beavers.

(d) Jerboss. (e) Mice. (f) Mole-rats. "(g) Porcupines. (h) Chinchillas.

(k) Cavies (guinea-pigs). Hares and Rabbits, etc. Note in South China the absence of

(e) Black rat (Mus rattus). Gazette, 1907, p. 36.

Govt. Gazette, 1907, p. 36.

' arrow pig "), seen on hills in San-ui.

(1) Hare, Chinese name To, seem at Rats and mice seem to be as aboriginal as men in China. In the Shi King the where they may be seen, almost any day, Chinese Book of Odes, every one of hanging, head down, from the caves of which is previous to the time of Confucius (B.C. 550-478) , someone exclaims -probably from experience of depreds About ... £1,400,000 tions on his rice "Who can say that the rat has no teeth?" He then compares wings 2 feet. the tyrranical and oppressive government

official to the little besst. Mammars. Insectivors [Insect-cating long: total stretch of wings 3 feet! Animals)

representative, a shrew (sorex rattus), the Marble Rick Cat Shin Hing.

THE RESTORATION OF

LOST HEALTH.

SCIENCE'S SUPRIMEST FORCE

uttered these words at his club to the writer. A lictle while after, wno of the most charming and beaut ful weinen of the writer's acquaintance made a similar ramark. Their faces here the indication of ill-health; their manner-betrayed-the feeling poorly, and there was that general air of dejection and depression about them which showed that they had begun in take Ja possimistic outlook of their condition. People like these, sho have felt ill for a

ling time, whose courdescence has been slow, who take a dispirited view of their condition, can all recover their old so ee of buoyancy, their old feeling of vigorous health and a cogising vitality, it they will Me give heed to one of the strongest lessons Me being taught in the world of cience to day. This is to use Sanatogen, which every doctor now rangal um as the greatest revitalisar of the body in general and of the brain and nerves in particular, while its power of improving the blood is extraordinarily great, so that it has a high degree of utility in a wide circle of

It must not, however, he supposed that Sanntugen is anything like a "cure-all." It is not. It is, however, worth drawing | attention to the fact that the body is not divided into a number of separate compartments as it were, each of which has little or no relation to the others, as so many people seem to imagine. On the contrary, every system of the body depends in some way on a cry other system for its healthy activity. It is because Sanatogen acts directly on the nerves and the blood, and increases the body's nutrition, that it has so wide an application in the cure of various disorders and diseases.

Among the conditions of ill health from which Sanntogen may be confidently expected to rescore the sufferer, are those affecting the nerves, like nervous debility and breakdown; brain fag, with loss of memory and sleeplessness; nervous exhaustion; dyspepsia, and ancemia, with its attendant symptoms of languor; shortness of breath; palpitations, etc., and all conditions in which there is wasting or loss of

Moreover, in all those varied conditions in which a tonic is indicated, Santagen has always been confidently recommended by doctors all over the world, for they know that it never fails to restore the sensation f health, strength and well-being to its highest possibilities.

In this connection The Med oil Times states :- There is no doubt whatever the nutrition of patients taking Sanatogen improves wonderfully." General Practi ioner states :- "Itis, prob. ably, in cases of weakening or exhaustion of the nervous system, accompanied by various forms of mental and bodily inofficiency that Sanatogen proves most use ful. Rust, an out door life, and Sanatogen will often effect a cure." Write for a copy of a most interesting | Kais

booklet "The Art of Living," by Dr. Andrew Wilson, which will be sent free to all mentioning this paper on application to A. Wulling and Co., 6, Kluking Road,

Sanatogon can be obtained of all chemists.

called by the Chinese so shu, a little animal smaller than mus rattus, with soft, fine, almost black fur. It has Rodents are said to be more numer- giands on its flanks, marked by stiff The nostrils open at the side, and are fitted with a valve, which keeps out the dust. This "shraw is nocturnal in habits and has a cry somewhat like a bat. It is said by some Chinese to be very noxious, and its breath to be poisonous, by others it is considered a sign of good

> Strange as it may seem, shraws are divided into two great groups, as their teeth are white or stained red. former are very widely distributed; the latter almost confined to the continent

Two well known English animals, grey a slender hairy tail longer than hody, members of this group, are conspicuous fur fine. Fars large, See H.K. Govt. by their absence in South China, the hedge-hog and the mole. True moles (e) Brown rat (Mus decumanus). are found in the temperate parts of Lighter shade than above; tail shorter Europe, Asia and America, but only two than body, thick and coarse, no hairs, species are known south of the Himelays Fur coarse. Ears small. See H.K. Mountains. The name last thu (plough tat) is given in the dictionaries as the (9) Common mouse (m. musculus). equivalent of mole, but whether the Not distinguished as a separate species animal exists in North Chins the writer does not know. Hedge-hogs are said to (g) Porcupine, Chinese name T'sin chu be unknown in countries east of the Bay

of Bengal. MANMALS. - Bats. Bats are not nearly as abundant in South China as in the Malay Peninsula,

The commonest species here are ;---Vespertilio, fei shu, seen at Hongkong and Canton . Size of rat : total stretch of Proropus; fuk shu, the " flying fex," seen in Hongkong Delta. Body Sins.

There is probably a third kind called Of this order there seems to be only one by the Chinese shok yin, to be seen at

MANNAL, Primates (Ma-lau): Chinese name Ms lau, seen at Lon-fau Mountains, Pok-loh. Brown; ent unripe

Chinese name Wu un, seen at Loh-lau Mountains, Pok-loh. Black, reported height 2 feet Eat ripe fruit. The two kinds meyer found together." say the monks at Pak Hok Miu, Loh Fau. (To be Ountinued.)

CANADA AND THE EMPIRE

Borden, accompanied by the Hon. Mr HAZEN, Minister of Marine, and other of his distinguished Ministerial colleagues are, as all who take an interest in the Empire know, at present in London, conferring with His Majesty's principal advisers with reference to the defence of the Empire, particularly in relation to Canada's share of that defence. In this connection it is interesting to note what one of Canada's leading news." papers stated previous to the departure of Mr Bonnen and his colleagues. The ". foron'o News " stated :--

"Germany has long counted on Camda holding aloof, and on her example leading other over-sea Dominions to do likewise. Now i the time to show the world that this is a pure delusion.

"If Canada now lends the way in a big way, the War Lords of Germany may see that they cannot build battle ships against five prosperous British nations growing every day more powerful. By doing the right thing now the Ottawa Government may actually check Germany in her mad

emergency contribution of two Dreadnoughts this year would have a powerful moral influence in properly moored, came to light yesterday. Mr Harris and his friend might be defence policy in league with the Imperial authorities."

There is also a growing impression in the Dominion, according to an Ottawa correspondent, that the report that the Candian Ministers may offer to underlike the upkeep of two Dreadnoughts and auxiliary vessels in the Acidley, the amount, of his claim being Atlantic and the Pacific and to construct large dicks is based on more than mere rumour. This plan will it is said, at least constitute

HOW A DYNAMITER WAS CAUGHT.

A Clerer Russ.

A case, which reflects much credit upon the Water Police, came to light to-day. It appears that shortly before eight The s.s. Kaifong arrived this morno'clock last night, a Chinese sub-contractor visited the Water Police Station at Kowloon, after having been to the Yaumati Police Station, and made a report to Sgt. Wills to the effect that a robberywith violence was committed upon him by six men who were in a bost while he was proceeding through the Harbour Officer who was doctared to have amall to Yaumati from Green Island.

He reported that robbers, six in nunber, boarded his boat, knocked him down and beat him. Afterwards they stole from his sumpan two cases of dynamite -weighing 800 lbs.-as well as 600 detonators. 'He apparently did not know which way they came from, or where they went to. He, further, would not know the men again if he saw them.

L. Sgt. Wills severely examined the man upon his statement, and put ques tions to the man, whom he noticed to have much hesitation in answering. He thereupon suspected the man's story, and came to the conclusion that it was false Having cautioned him he charged him with being the thief. He thereupon admitted that he had sold the dynamite and detonators for \$75.

The police officer endeavoured to ex tract from the man as to what he had lone with the dynamite, and as he retused, he was searched, whereupon Sgt. Wills found concealed in the sole of the man's right shoe the sum of \$65 in notes; while in one of his pockets \$5 in sil 'r He confessed that the money had just been given him in exchange for the dynamite and detonators which belonged to his employer. Before Mr. Melbourne to-day, the may

was charged, firstly, with the larceny of dynamite and detonators, the property of a contractor in Yaumati. Two further charges were brought against him.

Mr. Melbourne sentenced defendant to three months' hard labour on the first charge, and dismissed the other two

This amount, when a certain one was called two solicitors; she said, was more than she would cuty rose simultaneously and informed the in a week. There is little doubt that she

The case tends to show some of the difficulties with which the police have to contend. Had the man made, a report of an armed robbery with violence, police of Kowloon and of Hongkong would have boen at their wits ends to find the miscroants, and would have to board ships sampans, etc., in the Harbour. It can therefore be assumed that false reports to the police must be regarded in a serious light. At they same time we congratulate Sgt. Wills upon the vigilance ho exercised.

### THE "PHILHARMONIC" CONCERT.

The convert given by the Hougkong Philharmonic Society in the City Hall yesterday evening was exceedingly enjoyable. The sudience, though not large, was very appreciative and evinced the pleasure they derived from the well-chosen items of a fine programme by bearty applause and an occasional demand for an encore. Elgar's beautiful beelody "The Dance" was the opening item and was spleudidly sung It was followed by the same com Mr Looker said he was very anz ous poser's melodious 'Lullaby," which received a most charming residering from the Lillow ing members of the Society: -Mrs Head such particulars as appeared in the state- Mrs Kew. GREAT BRITAIN AND MEDITERRANEAN

AIR EDWARD GREY ON THE SITUATION.

Foreign Policy Unchanged.

Reuter's Bernice to the China Mail.) LONDON, July 11. Bir Edward Grey, Secretary of State for Foreign Affairs, speaking in the House of Commons on the Foreign Office . Vote, and reterring to the (Reuter's Service to the China Mail.) situation in the Mediterranean, pointed out the necessity of having a sufficient energin of strength in home waters, and not relying on foreign policy alone to protect the United Kingdom, It wit not necessary for Great Britain to sep a force in the Mediterranean able to hold her own at any moment against, all other Powers, but though there was no prospect of any quarrel in the Mediterranean, if we abandoned it eltogether there would be a tendency for us to slip out of account and the diplomatic situation might become strained. We ought to keep a sufficient mayai force in the Mediterranean evallable, for use at any moment to enable us to be counted as one of the Mediterranean naval Powers. In view

Black and White Silk and Liste HOSE.

(By Perus in "Shipping & Engineering.") Saturday, June 6.

Arrived at Shanghai 6 a.m. Have beed on deck since midnight and standing by since Woosung. Bathed, shaved and dreased in full regalia before breakfast and settled down in my room to write up two days log before taking books to office.

No sooner commerced than newspaper man poked his head inside and ejaculated. Wantches lepolt " Telling him firmly but politely to get it from the second officer, I started again, when another face appeared; the coalman's, "Wantchee puttee minty tons coal on deck, mister chief office. What side you wantchee." Telling him rather more forcibly than politely to put it in an unmentionable place I resured my writing Enter wharinger with diabolical grin on his face. "You are going to Haukow this afternoon at 3.00 p.m." He being a white man and befty. I swallowed lump in my throat and took the letters that he had brought. No sooner had T distributed these and commenced on the log again, than another grin appeared. Wantchee Bockus sew-sew, it said No 1" I yelled, go away and the third blot fell coftly on the log book. Counted ten and got going again, when another face appeared in the doorway: Shoos makes mend, ploper Engelishy City you son of a gun." I said. and he went. Remembered that I was a Christian and dealing with poor benighted pagans. Had a whisky and sods to soothe my troubled spirit, This trivial action probably saved a human life, for no sooner had I put the glass back in the rack than a quartermater came along ... Tlease mister

chief office, mi wantabee stop back this. tlin Mother makes die." up itra place where even Chefoe water would be acceptable. I got up, locked my door from the inside, an l despite the stiffing hest, finished my log without further disturbance.

Gathering my books together I put sen my coat and made a rush for the ferry Missed it by about two second and had to wast fifteen minutes, during which time ! was interviewed by a dozen quartermis ters, tires bosums and two carpentace, all Acres to the office and reparmed to the
